WHEN YOU ARE READY TO
BUY YOUR
BOOTS AND SHOES,
I respectfully solicit your examination of my
NEW SPRING STOCK</

The railroad contest in California is practically ended by the defeat of the Archer bill, and the best that is now expected will come from the passage of the O'Connor bill, which has passed the Senate, and is likely to become a law. The bill as originally introduced by the Senator from Nevada county provided for the appointment of one Commissioner, with duties mainly confined to the collection and tabulation of statistics fashioned after the law which has been for several years in force in Ohio. As passed by the Senate three Commissioners are to be appointed at a salary of \$3,000 per year, and a clerk at \$1,800. Interpolated in the bill also, is a clause which the Committee on Corporations state was introduced because of the recent experience in Wisconsin, declaring that the rates of fare and freight in force on all the railroads of the State on the 1st of January last be the maximum rates in force for the future. A second chapter in the bill is designed to prevent extortion and discrimination, which also contains a clause regulating the issue of stop-over tickets, and declaring that the same shall be good for six days. We have been led to expect more favorable legislation upon the subject, but the Democrats have allowed themselves to be controlled by the railroad oligarchy. And that is where they have made a great mistake.

CORRUPTION AT HOME.

While we of the Pacific Coast have gloried in Secretary Bristow's efforts to prevent corruption in the East, we shall be equally gratified to have him expose and punish those who are guilty of such abuses on this coast. An opportunity will soon be afforded him. Hon. D. L. Phillips, who spent some months in California investigating the Revenue and Customs service on the Pacific Coast, has made a full report of his observations to the Secretary of the Treasury, and the report will undoubtedly be made the basis of important action looking for the reformation of abuses on the Pacific Coast. These abuses, he says, are the inevitable results of the vicious political system which gives the local politicians the control of appointments, which should rest with the Executive. It is more objectionable on the Pacific Slope than elsewhere, on account of the remoteness of those States from the national capital. The offices have been used by Senators and Representatives to secure their re-election to and continuance in office, and responsibility seems to be to them instead of the head of the Government. It is understood that Col. Phillips has not made charges against individuals, but has placed the Treasury Department in possession of facts establishing the corruption of the present system, all of which are backed by reliable testimony.

CENTENNIAL PROGRAMME.

The programme for the opening of the Centennial is made out. The specially invited guests, being Government, State and Municipal officials only, will have a reception in the Art Gallery Terrace on May 10th. An orchestra of one hundred and fifty musicians will supply the music. Gov. Hastrand will conduct the President to the grounds. There will be no formal procession. After religious services, the Centennial Commissioners will present a report to the President, who will then deliver a formal address declaring the exhibition open. May we be there to see.

Wood is \$13 per cord in Austin. All the same Eureka.

OUR NEW STATE PRISON.

The Board of State Prison Commissioners paid our town an official visit to examine the progress and quality of the work done on the State Prison walls, and Messrs. J. R. Kittrell, Attorney General, and J. D. Minor, Secretary of State, returned by rail to Carson yesterday, evidently well pleased with the work done by the contractor. The Governor still remains closely examining the walls and towers so far finished, and the workmen as they place block after block of stone in the massive wall, apparently desirous of his own knowledge to pledge as to the merit of the work, expressing in terms of highest commendation, his opinion that the work is the most substantial and design as pleasing to the eye as he, through a long life and experience in such matters, has ever had come under his notice. The building of this prison being a cherished object of the Governor, it is but natural that he should take more than the ordinary official interest in its construction, being anxious that the State should have a secure residence for her convicts on the line of the great trans-continental railroad and on the banks of the Truckee, with its unsurpassable water power to propel machinery to be used within the prison walls in the manufacture of work that shall not interfere with the manufactures of our State, but shall build up interests the State requires, and at the same time make the prisoners a source of profit to the State. Such an enterprise is the ardent wish of our Governor, and in the front rank of the list he names a woolen mill, claiming that cheap labor and fair management will ensure its successful operation, and at the same time will build up the wool growing interests of our State to gigantic proportions, and will keep in the State the vast amount of money now paid out and lost entirely to us—for the woolen goods imported from California, the East and Europe—all of which being plainly palpable upon its face, causes us to wonder where within the limits of our young and growing State can be found a man, who, having a proper regard for the material interests of the State, can oppose so plain a proposition. If the Governor can accomplish this work during his administration he can well afford to stand the abuse and calumny of his enemies, for the present and future generations will award him honesty of purpose, sound judgment, indomitable perseverance and a public benefactor—self being lost entirely in the public weal.

The prison contract is now over three-quarters finished. It will be complete by the 10th of June, provided coping can be had to finish the wall. The sub-contractor is deserving of credit for energy displayed in prosecuting the work, though he complains that the architect is rather too strict a constructionist on the specifications.

ABOUT THE 3d of next month, the California mill will be started up on California ore. Its capacity is 300 tons per day, and it will be kept steadily running on ore from the mine. Mr. Mackay, when asked Friday morning whether any new mill would be started up on the Con. Virginia ore to supply the place of the California mill, replied: "Not at present; I guess we'll be able to get out enough to keep dividends going for both of them." This change will be good news for the California stockholders.

MINING ITEMS.

The Trustees of the Gould & Curry Mining Company have levied an assessment of \$1 per share, amounting to \$108,000, delinquent in the Board on the 22d of April, and at the office four days later.

The Hale & Norcross, Gould & Curry and Savage mines are practically under the same management, and assessments are in process of collection on each, the total aggregating \$300,000. A shaft is being sunk on joint account.

The total amount of sales at the San Francisco Stock Board for the week ending on the 21st is given at \$5,800,000. The heaviest transactions were in Imperial and Mexican, aggregating nearly 40,000 shares, about evenly divided between the two mines.

The question of increasing the number of shares in the Daney mine from 24,000 to 108,000 will be voted upon at the annual meeting of stockholders on Monday. This stock sold Friday at \$1 per share, which is \$24,000 for the whole mine and all its properties. It is supposed that the stock will bring quite as much after the division as now, which is equal to a dividend of \$3 50 per share. This is probably the only way of getting a dividend out of the mine for the present.

The consolidation of the Imperial groups of mines has at last become a certainty, and the following table, although previously published, appears again for the benefit of those whom it may concern. The following claims compose the consolidation, number of feet and shares: Imperial, 183½ feet—shares for ground, 177,735; Empire, 75 feet—48,077 shares; Gold Hill Quartz, 31½ feet—22,009 shares; Eclipse, 70 feet—44,872 shares; Trench, 20 feet—12,820 shares; Bacon, 65 feet—41,867 shares; Bowers, 20 feet—12,820 shares. In addition to shares allowed the Imperial and Empire for ground, the Imperial receives 150,000 and the Empire 50,000 shares as payment for shafts, making a total of 267,735 shares for the first named, and 98,077 for the second. Grand total, 500,000 shares of the par value of \$100.

BRISTOW AND HAYES.—Carlin Republicans express their choice for President and Vice-President as follows:

CARLIN, Nev., March 22, 1876. I noticed a request a few days ago in the *Enterprise* to Republicans to designate their choice for President. I have taken some trouble to ascertain the feeling in this section and they are almost a unit for Bristow, with Hayes for second choice. Yours truly, Jno. Woodworth.

We are in receipt of a letter from Elko stating that the sentiment there is also for Bristow and Hayes. That is a good enough ticket for us.

A FEW days ago a huge block—not one of our "bricks"—of silver arrived at New York from the city of Mexico, on its way to Philadelphia to be exhibited among the Mexican products at the Centennial. It is of pure silver, from the Real Potosi, one of the oldest mines in Mexico, weighs 4,200 pounds, and is worth \$64,000 in gold. This splendid block is six sided, three feet long, a foot in diameter, and is highly polished.

The Eureka Consolidated and the Richmond Company have each two men employed keeping down the water, which comprises the entire working force of these mines. The K. K. has seventeen men employed which, with the four above mentioned makes twenty-one, the entire number of miners employed at Ruby Hill.

SECRETARY BRISTOW has sent \$3,300,000 in dimes, quarters and half dollars to New York, \$3,000,000 to Boston and \$2,700,000 to other money centres, in readiness for the redemption of fractional currency.

THE Grand Jury purpose making a speedy disposition of the Belknap case. It is understood the presentment will show a startling condition of affairs and implicate officials hitherto irreproachable.

THE statement that the books, documents, letters, papers and general archives of the State Central Committee of the Independent party of California have been turned over to the Republican committee is denied.

TELEGRAPHIC MELANGE.

Summary of Important Telegrams.

The Antioch Distillery Whisky Ring—Office Affairs of the Surveyor General—Renowned Anti-Coolie Vigilance Committee.

SAN FRANCISCO, March 24.

Speculation still continues rife concerning the Whisky Ring disclosures. A statement is published in the *Chronicle* this morning that Collector Sedgwick some time ago received a positive official confirmation that a certain storekeeper at the Antioch Distillery had, in collusion with certain distillers, been defrauding the revenue, but Sedgwick took no further action than to remove the storekeeper.

The examination into the affairs of the Surveyor General's office is still going on before the Land Monopoly Committee. The evidence shows at least, great looseness in the conduct of the officer under Gardner's administration.

It is rumored that an attempt is being made in this city to form an anti-Coolie Vigilance Committee.

The Extent of Colmar Babcock's "Irregularities."

SAN FRANCISCO, March 24.

Strong denials are made as to Babcock's relations with the Mint when he resigned, and the authorities of the Mint state positively that there was no defalcation at the time he quit, his accounts balancing to a cent. In the face, however, of all explanations, it is positively asserted by some who have had opportunities of learning the truth that the irregularities of the late coiner cost his bondsmen between \$10,000 and \$20,000, which they preferred paying and keeping the matter quiet, with the hope that Babcock's undeniable energy would enable him to repay them, to sending him to prison. Babcock is now in Nevada superintending the construction of a quartz mill. He was appointed Coiner in July, 1863, vice Harmstead. He has been succeeded by Frank H. Cicott, late Assistant Coiner.

Army Headquarters.

WASHINGTON, March 24.

General Sherman arrived this morning and called on the President previous to the Cabinet meeting. The General was also at the War Department and had a private consultation with Secretary Taft. The Secretary thinks General Sherman should resume his station here and to the full extent have charge of the ordinary business belonging to his office. The consultation to-day was brief.

The Pacific Mail Steamship Company in Trouble.

NEW YORK, March 24.

A Washington dispatch says the Pacific Mail Steamship Company is in trouble again with the Post-office Department concerning the China subsidy. It seems that this subsidy was payable for the entire service by American ships, and that by the sale of the Shanghai line to the Japanese Government it is no longer able to perform its contract, and Postmaster-General Jewell has stopped further payment of the subsidy. The matter is to be referred to the Attorney-General for his opinion, but the impression is that Jewell's position will be maintained.

The Chinese Question.

SACRAMENTO, March 24.

Senator Roach has introduced a bill to provide an appropriation of \$5,000 to defray the expenses of a delegation to Washington to urge a modification of the Burlingame treaty in reference to Chinese immigration.

Death of Consul General Dahlgreen.

ROME, March 24.

Paul Dahlgreen, Consul General of the United States to Italy, and son of the late Rear Admiral Dahlgreen, died here yesterday.

Oh Moses!

Mr. Henry Ward Beecher comes to the front, and expresses his views on the Belknap infamy. He says: Every man that loves his country would fain take a cloak and go backward and cover the shame and sin and sorrow of the miserable spectacle that humiliates us at home and makes us a shame stock abroad.

THE complete census returns of Oregon for last year show a population of 104,920, exclusive of about 16,000 Indians and Chinese, 27,166 legal voters and 12,858 more men than women. During the year there were made 98,285,684 feet of lumber, 190,891 pounds of cheese, and 1,555,298 pounds of butter. Of live stock there are 75,906 horses, 179,466 cattle, 107,620 hogs, 2,051 mules and 539,600 sheep. The number of acres of land under cultivation was 695,629, on which were raised 5,275,102 bushels of wheat, 2,953,086 bushels of oats, 280,703 bushels of barley, 17,363 bushels of rye, 161,433 tons of hay, 90,728 bushels of corn, 28,187 pounds of tobacco, 527,829 bushels of potatoes and 1,175,954 bushels of apples.

ENGINE TRIAL.

The boys played there was a fire yesterday, and ran the steamer out to see how well and how quickly they could get her to work. Of course they were a little awkward at first, but soon got the engine throwing a splendid stream. Our fire department is rapidly gaining efficiency, and the time is not far distant when our fire boys will rank with the best in the State. They only need an opportunity to prove their value. Our citizens already feel a security hitherto unknown. The officers are fully alive to their duties, and right well do they fill the requirements. The boys are ambitious, full of life, public spirited and brave. Hurrah for the Reno Fire Department and its engines.

ALL a mistake.

They are true blue. We will gladly receive them. And take them in exchange for bills due this office. Never mind about the discount on silver. No object with us. Please pay us what you owe us in Carson trade dollars. Hand them right in.

A CARD OF THANKS.

The members of the First Baptist Church of Reno tender their thanks to the citizens of Reno and vicinity for their kindness in assisting us at our festival on last Thursday and Friday evenings, held at our new church. Total amount received \$205. May the donors be abundantly prosperous.

C. L. FISHER, Pastor.

The employees of the Western Union Telegraph Company have been notified that there will be a reduction of 12 per cent. in their wages. When the time for this reduction comes around the Western Union operators will look out for some other healthy job, such as sawing wood.

SPELLING MATCH.

Friday afternoon the classes in Prof. Ring's school had an old fashioned "spell down" match. Little Gertie Lippman, of the junior class, was the last to leave the floor, though the contest lasted two hours. She proved herself quite an orthographical adept.

THE 26th of April is the 57th anniversary of the establishment of the order of Odd Fellows in the United States, and will be celebrated in Reno by a ball, as well as at many other places throughout the country.

STOCKS.

The market was stiff for the close of the week. Yellow Jacket is the excitement. Jim Keene tells the shorts it will sting 'em. We hope so. Got 50 at 30.

SCHOOL ITEMS.

Rejo Grammar School Roll of Honor: The following named pupils have not been absent nor tardy during the month ending March 24th: Mollie Grippen, Flora Northup, Maud Johnson, Emma D. Gibbs, Frances Grippen, Blanche Leonard, Gordon Rice, Eddie Coffin, Clarence Christman. The following list includes the names of those pupils whose average standing in scholarship and deportment is 90 per cent and over: Flora Northup, 100; Allie Higgins, 100; Rebecca Fredrick, 98; Emma Gibbs, 99; Etta Lachman, 97; Gertie Lachman, 97; Maud Johnson, 97; Rose Wilcox, 97; Mary Ordway, 97; Henrietta Russack, 96; Louisa Wicks, 95; Josie Wintermantel, 94; Blanche Leonard, 95; Carrie Richardson, 94; Mollie Grippen, 95; Mary A. Taylor, 92; Martha Higgins, 93; Mary Marsh, 92; Dora Cantrill, 90; Willie Walrod, 95; W. A. Marsh, 95; Wm. Lemmon, 97.

Huffaker's School District, Roll of Honor, including the names of all pupils in said school, whose average standing in scholarship and deportment has reached 90 per cent. for the month ending March 24th, 1878: Jno. Lyell, 99; Chas. Lambirth, 96; Willie Norcross, 97; Thomas Norcross, 90; Gerard Ede, 95; Everett Ede, 93; Jno. Ede, 90; Rose Ede, 95; Alice Ede, 93; Jno. Lambirth, 99; James Lambirth, 100; Chas. Norcross, 96; Frank Norcross, 96; Eddie Hardach, 94; Emma Hardach, 93; Luther Smith, 90; Frank Edwards, 92; Mary Lambirth, 90; Mary Parker, 93; Frank Roche, 90; Frank Lambirth, 90; Robt. Wimberly, 88.

The school in Huffaker's District, taught by Charles Gulling, for the past seven months, closed on Friday, March 24. During that time the number of pupils in attendance was 28; number of boys, 21; girls, 7; average number belonging, 19.5; average daily attendance, 16.7; Percentage of attendance, 86.5. The funds of the district being exhausted the Trustees will be unable to maintain a Summer school.

The school in Brown's District has been in session three weeks, and is taught by E. C. McClellan.

The Trustees of North Truckee Meadows District have ordered some desks from San Francisco, and if they arrive in time the school will commence Monday, April 3d, Miss Mary A. Taylor to occupy the position of teacher.

The school at Glendale commenced the Summer term last Monday, and is taught by Miss Ruth Stiner.

The addition to the Reno School house is now completed, and on Monday every department will commence operations again. This includes Miss McNeely's department, which was adjourned some time since. A full corps of teachers will be on hand.

THE ECLIPSE.—Reno was fully alive to the importance of such an event as the eclipse of the sun. It was plainly visible for a couple of hours, and was viewed through smoked glass till it passed off. Two funny little episodes occurred during the time. A gentleman friend of ours, who is the possessor of a large pair of field glasses, discarded smoked glass and observed the eclipse through his glasses. He will not repeat the experiment. It also came to our knowledge that two ladies, for whom the glass had been duly smoked and provided by a male friend, picked up the glass to look at the eclipse, but before carrying out their design, wiped the black all off. That spoilt their fun.

TO ALL FRIENDS IN GOOD STANDING.

Notice ye that you are all invited to participate in the shooting match to take place at the English Mill on Sunday next at 2:30 p. m. Mr. Seeley has kindly consented to act as cook on the occasion. Watty will wait on table. Chicken lunch—but no spirituous liquor sold on the premises—bring your own flasks.

CONTRACTS TO LET.

For digging a ditch and constructing a flume for the South Side Canal Co. Parties wishing such contracts will apply on the ground next Monday at 10 o'clock, or to A. J. Hatch, previous to that time.

We hope our numerous local correspondents will be up and doing now, and furnish us with all the items of interest in their neighborhoods.

Religious Services.

DIVINE services will be held in the M. E. Church to-day, at 11 A. M. and at 7 P. M., also Sabbath school at 2 P. M. Rev. G. W. Fitch, Pastor.

At the Episcopal Church there will be divine service at 11 A. M. and 7 P. M. to-day Rev. Mr. Lucas officiating. Sunday school immediately after morning service. All are cordially invited to attend.

Rev. W. J. CHASE will preach at the Congregational Church, at eleven o'clock this morning, and in the evening at 7 o'clock. All are invited.

BAPTIST service will be held at the new Reno Opera House on Virginia street, to-day at 11 A. M. and 7 P. M., Rev. O. L. Fisher officiating. Subject: The Immortality of the Soul, argued from reason.

A GENERAL pruning of trees, renovating of lots and cultivation of soil is now in order, and is being indulged in to a large extent by our citizens.

TROUT in the Truckee River are biting splendidly and the fishermen and sportsmen are correspondingly happy.

THE NEW PAPER.—The Reno Evening Gazette is expected to make its first appearance to-morrow afternoon.

KEEP an eye open for counterfeit trade dollars. They are beginning to circulate.

THE COMSTOCK.

The outlook along the Comstock grows more cheering each day. The producing mines are yielding better than ever before and the new developments in the prospecting mines are opening up in the most satisfactory manner. Besides the very encouraging and important developments in the Mexican, Imperial and Overman we now have a strike of great promise in the Yellow Jacket on the 1940-foot level.

The deposit found in the Imperial appears to gain strength as it is followed north and it is thought that it will certainly extend into the Alpha. In the Mexican they seem to be on the south end of a large and valuable deposit of ore.

The drift going north on the 1300-foot level of the Union Consolidated is steadily improving as it advances. The quartz is rapidly increasing in the face of the drift.

Although not much definite information is vouchsafed outsiders, it is certain that a very promising development has been made in the Jacket, and all accounts agree that good deposits of ore have been found in the Overman.

Never before in the history of the Comstock has the situation along the whole Comstock been more promising than at present. Both at the north end of the lode and in the Gold Hill section, to the southward, valuable deposits are being opened. The ore-producing mines are all doing unusually well, and their yield will this month surpass that of last month; the Consolidated Virginia will go far ahead of anything it has yet done, as the yield will be not less than \$3,000,000. It is already \$2,091,746 33, with \$175,000 in the office, being \$433,000 more than was taken out at the same date last month.

With the new developments that are being made on the lead as a hoisting power, there can be no doubt that we shall see a very lively market this Spring. The general feeling is that it is coming, and that it must come.

This is very encouraging for our prospecting companies, all of whom are unusually active and are pushing their works most vigorously, both day and night.—Enterprise of yesterday.

Common lumber is retailing in Gold Hill and Virginia at the rate of \$32 50 per thousand at present; sugar pine (No. 1) sells at \$85 per thousand; redwood, \$70; clear dressed yellow pine flooring and ceiling, \$65; pine shingles \$5; redwood shingles, \$8.

Booms are being strung all along the Carson river for the big drive from Genoa, amounting to 30,000 cords, which will be turned loose in a few days. Mr. Smith of Carson, will have charge of the drive.

A DREADFUL story of official violence comes from Matamoras. A Mexican General has laid the city under heavy contribution and threatens to take with the sword what may be refused by the citizens.

Mayor Clark, of Austin, gives no notice that an election for city officers for the ensuing year will be held on Monday, April 24th.

GENERAL SHERMAN is in Washington. Secretary Taft desires him to resume his station there.

SPECIAL NOTICE.

FOR SALE.—Two lots with good house, in Western Addition, fronting 100 feet on two streets. Inquire of G. E. Hall, Boot maker, Commercial Row. mh20-1w

FOR SALE.—Persons who wish to purchase building lots 50 by 140 feet, to the alley, in the most pleasant portion of Reno and soil in the highest state of cultivation, can do so by applying to STEPHEN CONNER.
